

October 9 Meeting Notes

New Meeting Format Concept

The "UGMeeting-CoolerConcept.pdf" file is the instructions and agenda we used for our group activity at the October 9 meeting. This was the first time we tried a project like this. It really got people working together and learning about how others start their initial design process. Special thanks to Greg Jankowski for all your hard work on this.

New Meeting Format Responses

Thank you for your responses at the October 9 meeting. The "New Meeting Format Responses.pdf" file is a compilation of the feedback we received. As you'll read the overall the results were pretty positive and your suggestions for improvements will be incorporated in our next meeting.
